

THE COMPLETE FACILITY & ASSET MANAGEMENT SOLUTION

Built for facility management companies and teams handling real estate assets and essential facilities across diverse industries

TOP FEATURES

Service & Work Order Management

Create, assign, and manage corrective maintenance, inspections, installations, and safety tasks

Preventive Maintenance

Reduce downtime with auto-scheduled servicing, routine checks, and custom maintenance plans

Inventory Management

Track and manage inventory, assets, and warehouse movement across all locations

Asset Tracking

QR-based tracking, check-in/out, and lifecycle monitoring for multi-site asset control

Receivables & Payables

Manage invoices, bills, credit/debit notes, and payment settlements from one place

Facility Management CRM

Handle leads, pipelines, onboarding, and quotations through a built-in CRM for FM teams

Contract Management

Manage service contracts, vendor agreements, and related documents in one centralized place

Warranty Handling

Auto-detect warranty status and block post-warranty actions without proper steps

Smart Checklists

Pre-set issue-based checklists to guide inspectors during servicing and audits

Automate. Integrate. Transform.

We integrate with leading ERPs, IOTs, smart devices, social and omnichannel platforms
