

ALL-IN-ONE PROPERTY SALES SOLUTION

Built for real estate developers, agencies, and sales teams to manage leads, pricing, payments, handovers, and buyer documentation

TOP FEATURES

Unit Inventory & Pricing Setup

Create and manage project-level unit masters, pricing structures, availability, and status updates

Lead Management & CRM

Capture, qualify, and convert leads through structured sales pipelines, tasks, and inquiry tracking

Site Visit & Booking

Schedule and track site visits, manage approvals, booking forms, and token collection digitally

Quotations & Agreements

Generate sales agreements, capture buyer details, and manage e-signatures with streamlined workflows

Handover & Post-Sale

Coordinate final payments, inspections, and handovers while tracking customer support tickets

Accounting & Payments

Configure milestone billing plans, issue receipts, and monitor due payments with ERP integrations

Document & KYC Management

Centralize buyer agreements, documents, and KYC files with expiry alerts, approvals, and audit trails

Lead & Channel Hub

Manage direct and broker leads, track referrals, follow up automatically, and sync with your marketing campaigns

Automate. Integrate. Transform.

We integrate with leading ERPs, IOTs, smart devices, social and omnichannel platforms
